

WATER STORAGE PROJECT Information Session

Despite high average annual rainfall across Northland, a lack of storage means much of this water can't be retained for use at times of shortage.

Te Tai Tokerau Water Trust is developing a Community Water Scheme that provides water storage reservoirs and a distribution network near Kaikohe in the Mid North, and on the northern Pouto Peninsula in the Kaipara.

Creating a more reliable water supply will allow landowners to plan and implement future land use change with greater confidence. The scheme would also be available to boost town water supplies.

Te Tai Tokerau Water Trust invites you to attend an information session to learn more about the water storage and delivery schemes planned for Northland.

Kaipara

11:00am-2:00pm

Southern Rugby Club
1035 Pouto Rd, Te Kopuru

Mid North

11:00am-2:00pm

Memorial Hall,
Memorial Avenue, Kaikohe
